

USG Partnerships

USG has our own budget for programs and events on campus, including funds earmarked for collaboration with other groups.

Depending on goal/scope/intent of the event, we may be able to partner with your organization. This would mean co-planning and co-coordinating together

If you have an event that you want USG to work with you on planning and developing, please reach out the USG Tempe Student Body President who can direct your request/idea to the appropriate member of the USG team to discuss further

It is also possible that USG may reach out to your organization with opportunities to collaborate or co-plan which often includes our ability to share resources
